DIARY NOTES

DD/S

15 June 1962

25X1A

1. Jim Garrison and M [REDACTED] were in to give me a brief rundown on their recent trip. They thought that it was most profitable. Jim thought that, generally speaking, the Logistics situation was in pretty good shape - far better than what he saw there three years ago. (There are no problems requiring DD/S attention at this time.)

2. [REDACTED] was in to say good-by prior to his departure for [REDACTED]. I think that he will do well in this job, and I have emphasized to him that this is not merely a Logistics planning position but rather a support position and that he should be careful not to overlook any of the support aspects.

4. Shef Edwards telephoned me about the possible promotion of [REDACTED] to a grade GS-15. I asked him to do some research on what other people doing comparable jobs in Government got and indicated that I wasn't too sympathetic to this proposition. However, if there should be some good reason for going ahead with it in Cecil's case, it probably should be a personal rank assignment. I also asked Shef to prepare papers recommending [REDACTED] for promotion to grade GS-18, using his chairmanship of the USIB Security Committee as an additional argument.

5. I have agreed with Jim Garrison that [REDACTED] is to be assigned as the Contracting Officer for the CIA Overhead Reconnaissance Program.
